Chamber's Note

A Show of Confidence

On Monday 14 February the Italian Chamber, with the support of the Embassy of Italy in South Africa, co-organized the inaugural European Trade and Investment Breakfast at the Radisson Blu, Granger Bay Cape Town. A high-level guest list of over 150 individuals, including Italcham members and other leading Italian businesses based in Cape Town, rubbed shoulders with the heads of over a dozen European diplomatic missions, representatives from the Western Cape Government, Wesgro, Green Cape, and more.

After a session of networking, speeches were made by the EU's Ambassador to South Africa, Mrs. Riina Kionka, Western Cape Finance, and Economic Opportunities MEC, Mr. David Maynier, CEO of Wesgro, Ms. Wrenelle Stander, and the Mayor of Cape Town Mr. Geordin Hill-Lewis. Attendance was free and by invitation only.

The business breakfast was designed to emphasise the confidence of Europe, as South Africa's biggest trading partner, and to further explore investment and business opportunities in the country. Last year the bilateral European Chambers began to discuss the possibility of such an event, positioning the event in Cape Town and deciding to closely coincide the event with the opening of Parliament.

The event was a collaboration between several European Chambers including the Italian Chamber, the EU Chamber, the Belgian Chamber, the French Chamber, Spanish Chamber, the Swiss Chamber, and the Netherlands Consulate in Cape Town. A number of Embassies, including the Italian Embassy, supported the initiative which coincided as the first event to have taken place since the Chamber began establishing its presence in Cape Town.

Italcham is extremely proud to have partaken in this event which promises to become a regular part of Europe's diplomatic calendar in South Africa. High-level representatives from the South African Government, the Diplomatic corps, and trade organizations will be present at this not to be missed event that will provide a valuable opportunity to network and enhance cooperation.
